

Project Design Phase-I

Solution Architecture

Date	19 September 2022
Team ID	PNT2022TMID13671
Project Name	Curde Oil Price Prediction
Maximum Marks	4 Marks

Solution Architecture:

A complicated process with numerous sub-processes, solution architecture connects business issues with technological solutions. Its objectives are to:

- Use the LSTM technique to identify the best technological solution to address current issues in businesses.
- Explain the software's layout, traits, behaviour, and other features in order to anticipate crude oil prices more precisely.
- Offer guidelines for how the solution will be developed, managed, and delivered. Example - Solution Architecture Diagram.
