LITERATURE SURVEY

Sl.NO	Author & year of publication	Journal	Title of the paper	Advantage	Explanation
1.	Ali Jadidzadeh, Apostolos Serletis (2022)	Journal of Innovative Science and Research Technology	Oil prices and the natural gas liquids markets	To identify the structural demand and supply shocks in the crude oil market, we use a vector autoregression model.	The impact of oil market structural stocks on the prices of natural gas liquids(NGLs), including ethane, propane, normal butane, isobutane, and natural gasoline
2.	Tahir Mumtaz Awan, Muhammad Shoaib Khan, Inzamam Ul Haq, Sarwat Kazmi (2021)	Journal of Research Technology	Oil and stock markets volatility during pandemic times	These results are sourced from the substantial statistical differences between the global stock prices in the absence of the COVID-19 pandemic and the presence of the viral outbreak	This paper aims to critically analyze the current published research related to the volatility of stock market markets and crude oil in G7 countries due to the outbreak of COVID-19.
3.	Caner Özdurak (2021)	Journal of Innovative Science	Nexus between crude oil prices, clean energy investments	Renewable investments also tend to decrease in that period following the oil price trend. Moreover, a positive relationship between technology stocks and renewable energy stock returns also exists.	we examine the nexus between crude oil prices, clean energy investments, technology companies, and energy democracy. Our dataset incorporates four variables which are S&P Global Clean Energy Index

Sl.NO	Author & year of publication	Journal	Title of the paper	Advantage	Explanation
4.	Tolulope Latunde, Lukman Shina Akinola, Damilola Deborah Dare (2020)	Journal of Innovative Science and Research Technology	Analysis of capital asset pricing model on curde oil	Since the expected returns of DBO-Invesco DB Crude oil fund has a negative risk with negative expected returns, the investment in DBO-Invesco DB Crude oil will result in having a loss from the investmen	In this study, the capital asset pricing model had been used to analyse the market returns and the returns of the four common Deutsche Bank (DB) crude oil assets.
5.	Yilin Wu, Shiyu Ma (2021)	Journal of Innovative Science	Impact of COVID-19 on energy prices and main macroeconomic indicators—evidence from China's energy market	Based on the ARIMA-GARCH model, this paper calculates the dynamic VaR of the energy price yield series to estimate the energy market risk.	Based on the modeling analysis results, this paper makes constructive suggestions on how to stabilize energy prices and recover the economic development in the context of the COVID-19 pandemic.
6.	Zhang Y, Ma F, Wang Y (2019)	Journal of Research Technology	Forecasting crude oil prices with a large set of predictors	Behaviors may change from time to time. Therefore, the regression equation should be updated frequently to maintain the model's accuracy. In	In this paper, we use two prevailing shrinkage methods, the lasso and elastic net, to predict oil price returns with a large set of predictors

Sl.NO	Author & year of publication	Journal	Title of the paper	Advantage	Explanation
7.	Yu L, Zhao Y, Tang L, Yang Z (2019)	Journal of Innovative Science and Research Technology	Online big data-driven oil consumption forecasting with Google trends	That can be helpful in predicting oil consumption - an essential but uncertain factor in the oil supply chain	An online big data-driven oil consumption forecasting model is proposed that uses Google trends
8.	Wang J, Li X, Hong T, Wang S (2018)	Journal of Innovative Science	A semi-heterogeneous approach to combining crude oil price forecasts	Variation of lag in a period of time has been done for the most optimum and close results	In this paper we examine the impact of oil price shocks on stock returns of four oil and gas corporations.
9.	Shao YH, Yang YH, Shao HL, et al. (2019)	Journal of Research Technology	Time-varying lead–lag structure between the crude oil spot and futures markets	It shows that the prediction accuracy of the variable selection-machine learning integrated model is significantly improved compared with that of the univariate model and the univariate mode	In this paper, we investigate the long term relationship of stock prices of alternative energy companies with oil prices in a multivariate framework.
10.	Li SF, Zhang H, Yuan D (2019)	Science and Research Technology	Investor attention and crude oil prices	In the short term, when crude oil prices and returns are in a bear market, the larger volume of	In our paper, we focus on technology development and market fear as important factors and
